(54) TELEPHONE SET

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a telephone set easy to use and having satisfactory operability in the operation of selecting a variety of functions required for communication.

SOLUTION: The telephone set is constituted of a display portion 2 for displaying address information sets, etc., an operation portion 4 having a variety of buttons for operating the telephone set, and a connection portion 3 having an I-shaped axis structure for connecting the display portion 2 with the operation portion 4. A selection portion 8 for selecting the address information of an opposite party for communication among the address information sets displayed on the display portion 2 is provided on the connection portion 3.
